Congratulations to everyone that passed!!!

This Grading held extra challenges with not only having to video the requirements, but to also learn over zoom and continue training to maintain progression and then complete the remaining material in a live class. So an extra well done to all those that attempted the Online Gradings!!!

Awards

Belts have been awarded as candidates have completed the sparring and board breaking requirements. Certificates have been ordered and will show the date that individuals passed the virtual material. This will also be when the time served for the new rank begins. If class attendance has been maintained with virtual, outdoor and now indoor classes, the first opportunity to Grade will be 3rd October.

Grading Scores

With this Gradings being so fragmented, scores were not the basis of how Instructors passed/failed candidates. The same assessment criteria was used, but a simply Yes/No system was used. This will also be factored into future Gradings, so if scores are very close to the minimum amount, Instructors can use their judgement to give their decision/outcome of the Grading.
